Small Sales, Microsale & Commercial Firewood Program

The Petersburg Ranger District is announcing its annual commercial timber program activities, which consist of various small sales, microsals, and commercial firewood opportunities. Commercial sales will be offered in areas previously approved through environmental reviews under the National Environmental Policy Act (NEPA).

Harvest may include green trees using uneven-aged management and may include the removal of dead and dying trees proposed by a Prospective Purchaser and/or Permittee. All areas will be reviewed by District Resource Specialists and approved by the District Ranger.

- Small sales and microsals maximum size is 50,000 Board Feet (50 MBF) and/or \$10,000 in advertised value.

- Permits may be purchased over the counter at Tongass Standard Rates for commercial use firewood of \$5 per cord (\$10/MBF) with a maximum value of \$300.

A small sale consists of green tree commercial sawlog while a microsale consists of only dead and down timber. A commercial firewood permit may contain both products. Wood fiber from these opportunities may be utilized for sawlog and/or value-added wood products for small timber operators.
