

Petersburg Borough Siren Alert & Warning System (SAWS)

Siren Testing

**First Wednesday of Every Month
at 12pm - 30 seconds, using a steady signal**

The sirens — used to alert the public in the event of an emergency such as a Tsunami, Natural Disaster, Major Fire or Foreign Attack — located on the roof of the Syd Wright Auditorium located at Petersburg Middle School, the Mort Fryer Sports Complex (Base Ball Fields) and Bayview Estates (Hungerford Hill) may use different sounds and tones to alert the public of different emergencies. Here is what they could sound like:

Emergency Warning - Wail Tone This will be a 3-5 minute wavering (warbling in pitch) tone or siren. The "Emergency Warning" signal should mean to all people that a danger is imminent and protective action (Evacuate, go to high ground or take shelter, depending on the emergency) should be taken immediately. Turn on your radio and listen for essential emergency information, keep telephone use limited to emergency contact, do not call 911 to ask about the sirens. The "Emergency Warning" signal shall be repeated as often as deemed necessary by local government authorities to obtain the desired response by the population.

Attention/Alert - Steady Tone A 3 – 5 minute steady signal from sirens. This signal may be used as authorized by city officials to alert the public to potential emergencies, where the public may face danger in the near future, such as under a Tsunami or Earthquake Advisory, in addition to any other meaning or requirement for action as determined by Borough officials. The Attention/Alert Signal should mean to all people, "Turn on radio or TV, keep telephone use limited to emergency contact only. Listen for essential emergency information, Be prepared to act."

Local Fire Alert - Wail Tone This will be a 30 second wavering (warbling in pitch) tone or siren. The Local Fire Alert is only to be used in cases of major fire, where multiple structures are endangered, Initial responders are over-whelmed and additional help is needed from reserve units, or abnormal events such as a plane crash or other accidents that require many more responders. The "Local Fire Alert" signal should mean to all people that an active Fire response is ongoing, affected areas should be avoided and routes leading to the scene should remain clear. Turn on your radio and listen for additional information, do not call 911 to ask about the sirens. The "Local Fire Alert" signal shall be repeated as often as deemed necessary by local government authorities.

Southeast Area Office
Draft Forest Land Use Plan

The Alaska Department of Natural Resources, Division of Forestry and Fire Protection (DOF), gives formal notice per AS 38.05.945 that the Division proposes to adopt a site-specific Forest Land Use Plan (FLUP) under AS 38.05.112 and the administrative standards of AS 41.17.060 for the commercial timber sale: Edna Bay Parlay Three Timber Sale (SSE-1342-3).

This timber sale is located on Kosciusko Island, centered approximately two miles west of the City of Edna Bay. The legal description of the sale area is within Sections 1 and 2 of Township 69 South, Range 76 East, all in Copper River Meridian. Access to the sale area is by a log transfer facility in Section 34 and from existing road systems.

The harvest units total approximately 114 acres and contain approximately 2,800 MBF of timber. This volume will be sold under the provisions of AS 38.05.120, in the form of one or multiple sales.

The FLUP is intended to provide the best available information regarding the proposed timber harvest on 114 acres and the management of other non-timber uses in compliance with AS 38.05.112 and AS 41.17.060, and must be adopted by the DOF before the proposed activity can occur. This FLUP does not determine whether or not to access and sell timber within the timber sale area, nor the method of sale. Those decisions have been made previously in the March 9, 2017 Best Interest Finding and are not appealable under this FLUP.

The public is invited to comment on the FLUP. Comments can be submitted by mail or by email using the contact information listed below. Comments must be received at the Division of Forestry office no later than **March 7, 2025**, in order to be considered in the adopted FLUP. To be eligible to appeal the adopted FLUP a person must have provided written comment by **March 7, 2025**.
